

DEAR PARENTS,

The remaining online lessons will use the *Dynamic Catholic* workbook *BLESSED: First Communion* as well as their corresponding online videos.

Due to the time remaining, we will not be covering the entire book as a class. For example, we will not start with Session 1. Our first lesson uses material from both Sessions 2 & 3. However, we do encourage you to read the portions we do not cover with your child as time and opportunity allow.

Our monthly online pages will include links to the corresponding *Dynamic Catholic* videos covered in that lesson. You will be able to access these videos free and without any sort of password. Dynamic Catholic teamed up with an Emmy Award-winning animation studio to create the first-ever animated film series for sacramental preparation. The quality is excellent and previous students have enjoyed them. Hopefully your children will enjoy them as well and want to view them over and over again.

You will also notice, that the end of each of our online lessons will include a form with a few questions for your child to answer and submit online. This is not a quiz for them. You are certainly encouraged to help your child form their responses. We look at this as an opportunity for parents and children to engage in discussions about our faith. The form will also have an option to ask us about the lesson material, or questions that may come up in your discussions. And, in the interest of full disclosure, the form also becomes an “attendance” roster for us.

Thank you for walking with your child on this special track of their faith journey. We know it can be challenging at times. Know that we are always here to assist as needed. Please do not hesitate to ask.
